Basic Information

- Place of Origin: CHINA
- Brand Name: ANROFU
- Certification: CE ROHS FCC DLC ETL
- Model Number: HY10-1000W-2B2-180
- Minimum Order Quantity: 1
- Packaging Details: Carton Box :1140*112*955mm Gross Weight: 18.5kg/ctn
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS Per Day

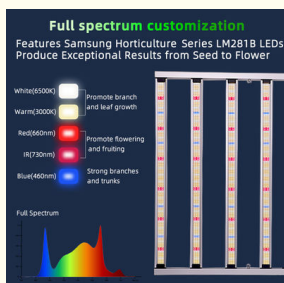

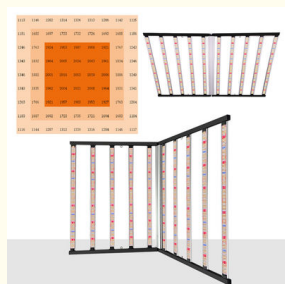

Product Specification

- Product Name: 1000W LED Grow Light
- Power: 1000W±5%
- Input Voltage: 100-277VAC 50/60Hz
- Lumen Efficiency CRI: 160LM/W >80
- PPE (Photosynthetic Photon Efficacy): 2.6μmol/J
- Dimmable: 0-10V Dimming
- Full Spectrum: Full Spectrum White Light/288pcs 301b +18pcs 3030 660nm+6pcs 3030 IR 730nm
- Coverage: 4x6ft
- Name: Full Spectrum LED Grow Light Panel
- Highlight: Full Spectrum LED Grow Light Panel 1000W, Panel LED Grow Light Full Spectrum, Full Spectrum LED Light Panels

Product Description

Product Description:

The Dimmable LED Grow Light comes in a panel light design that is easy to install and use. It is an item type that is suitable for any indoor gardening setup, and it can be used for a wide range of plants, including herbs, vegetables, and flowers. With a PAR rating of $2.6\mu\text{mol/J}$, this grow light provides the optimal lighting conditions that your plants need to grow and flourish.

One of the best features of the Dimmable LED Grow Light is its the Driver. This driver is designed to provide stable and reliable power to the LED lights, ensuring that they operate at peak performance. This means that your plants will receive consistent lighting, which is essential for healthy growth and development.

Another great feature of the Dimmable LED Grow Light is its wireless compatibility. This feature allows you to control the grow light using your smartphone or tablet, making it easy to adjust the lighting settings according to your plants' needs.

In summary, the Dimmable LED Grow Light is a high-quality and versatile lighting solution that is perfect for indoor gardening. Its panel light design makes it easy to install and use, and its powerful LED lights provide the perfect lighting conditions for your plants to grow and thrive.

The Driver ensures stable and reliable power, while its bluetooth compatibility allows for easy control and monitoring. Get your Dimmable LED Grow Light today and take your indoor gardening to the next level!

Features:

Product Name: Dimmable LED Grow Lights

Technical Parameters:

Product Name	1000W LED Grow Light
Model number	HY10-1000W-2B2-180
Power	1000W±5%
Input voltage	100-277VAC 50/60Hz
LED Driver	UL CE Driver
Lumen	160000LM
Lumen efficiency CRI	160LM/W >80
PPFD (Photosynthetic Photon Flux Density) (380-780nm)	2600μmol/m²/s
PPE (Photosynthetic Photon Efficacy)	2.6μmol/J
Channel	1 channel
Dimmable	0-10V Dimming
Full spectrum	Full spectrum white light/288pcs 301b +18pcs 3030 660nm+6pcs 3030 IR 730nm
Coverage	4x6ft
Mounting height	≥ 6" (15.2cm) Above canopy
Supplementation time	Vegetative Stage: 12 - 14 hours on; Flowering Stage: 9-12 hours on; Fruiting Stage: 7-8 hours on.
Product size	1800*1100mm
PF	>0.95
THD	<15%
LED Bar	10 strips
Angle	120°
Housing color/Material	Silver/Aluminum
IP	IP54 (Indoor using)
Lifespan	>50,000H
Working Temperature	-20°C~+45°C
Operating Humidity	<95%
Storage Temperature	-40°C~+80°C
Input voltage(AC)	100 V 208 V 240 V 277 V
Input current at 100%	8.3A 4.9A 4.3A 3.7A

Applications:

The ANROFU Dimmable LED Grow Light is perfect for indoor gardening, hydroponics, and greenhouse cultivation. It provides the right amount of light for different types of plants, enabling them to grow healthy and strong. The three dimming levels can be adjusted to meet the specific needs of the plants, whether for vegetative growth, flowering, or fruiting.

With a power consumption of 1000W, this product is energy-efficient and cost-effective. It uses an Inventronics driver that ensures stable and reliable performance, making it a reliable choice for growers.

The ANROFU Dimmable LED Grow Light is perfect for both amateur and professional growers. It is easy to install and operate, making it a user-friendly product. The bluetooth feature also makes it a convenient choice for those who want to monitor and control their plants remotely.

This product is ideal for a range of scenarios, including home gardening, commercial cultivation, research and experimentation, and more. Whether you are growing herbs, vegetables, fruits, or flowers, the ANROFU Dimmable LED Grow Light can help you achieve your desired results.

Support and Services:

Our Dimmable LED Grow Lights are designed to provide optimal lighting conditions for indoor plant growth. Our product technical support team is available to provide assistance with any questions or concerns you may have regarding the installation and operation of our product.

In addition, we offer a range of services to ensure that your Dimmable LED Grow Lights continue to perform at their best. These services include regular maintenance and cleaning, as well as replacement parts and repairs.

Our goal is to provide our customers with the highest level of satisfaction and support. If you have any questions or need assistance with your Dimmable LED Grow Lights, please do not hesitate to contact us.

FAQ:

Q: What is ANROFU Dimmable LED Grow Light?

A: ANROFU Dimmable LED Grow Light is a high-performance indoor plant growth light that offers full spectrum lighting, adjustable brightness, and energy efficiency for all stages of plant growth.

Q: Where is ANROFU Dimmable LED Grow Light made?

A: ANROFU Dimmable LED Grow Light is manufactured in China.

Q: What kind of plants can I grow with ANROFU Dimmable LED Grow Light?

A: ANROFU Dimmable LED Grow Light is ideal for growing all types of indoor plants, including flowers, herbs, vegetables, and more.

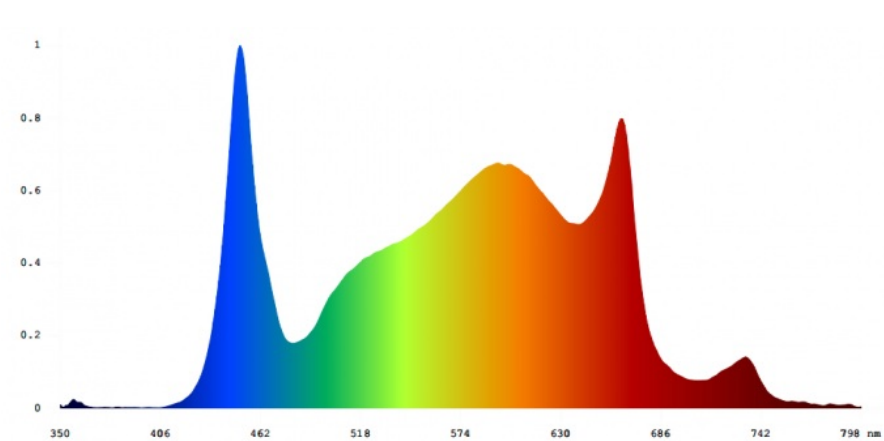

Q: How do I set up and use ANROFU Dimmable LED Grow Light?

A: ANROFU Dimmable LED Grow Light is easy to set up and use. Simply plug it in, adjust the brightness and spectrum settings, and position it over your plants for optimal growth.

Q: What are the benefits of using ANROFU Dimmable LED Grow Light?

A: ANROFU Dimmable LED Grow Light provides many benefits for indoor plant growth, including increased yields, faster growth rates, healthier plants, and reduced energy costs compared to traditional grow lights.
