

## QB288 Heatsink Durable Aluminum Heat Sink for Quantum LED Lights

### Our Product Introduction

for more products please visit us on [growled-light.com](http://growled-light.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ANROFU
- Certification: CE ROHS FCC DLC ETL
- Model Number: HY-299
- Minimum Order Quantity: 1
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 10000 PCS Per Day

#### Product Specification

- Size: Various Sizes Available
- Material: Aluminum
- Versatility: Can Be Used With Various Types Of Quantum Board LED Lights
- Durability: Made With High-quality Materials For Long-lasting Use
- Compatibility: Designed For Use With Quantum Board LED Lights
- Color: Black
- Ventilation: Multiple Ventilation Holes For Improved Airflow
- Design: Sleek And Modern Design
- Highlight: **Quantum LED Lights Heat Sink, Durable Aluminum Heat Sink, QB288 Heat Sink**

## Product Description

### Product Description:

The Quantum Board Heatsink features multiple ventilation holes for improved airflow, ensuring that your Quantum Board LED lights stay cool and perform optimally. The improved airflow also helps to minimize the risk of overheating, which can cause damage to your LED lights.

This heatsink is specifically designed for use with Quantum Board LED lights, ensuring compatibility and a seamless fit. The Quantum Board Heatsink is available in various sizes, making it easy to find the perfect fit for your Quantum Board LED light setup.

The Quantum Board Heatsink is finished in a sleek silver color, which not only looks great but also helps to dissipate heat effectively. The silver finish is also easy to clean and maintain, ensuring that your Quantum Board Heatsink stays in top condition for years to come.

The versatility of the Quantum Board Heatsink is another standout feature. It can be used with various types of Quantum Board LED lights, making it a great choice for those who want to experiment with different types of LED lights and setups. Whether you are using a small or large Quantum Board LED light, the Quantum Board Heatsink is sure to deliver excellent results.

Overall, the Quantum Board Heatsink is an essential component for anyone who wants to get the most out of their Quantum Board LED light setup. Its multiple ventilation holes, compatibility with Quantum Board LED lights, sleek silver finish, various sizes available, and versatility make it a standout product that is sure to exceed your expectations.

### Features:

Product Name: Quantum Board Heatsink

Color: Black

Versatility: Can Be Used With Various Types Of Quantum Board LED Lights

Design: Sleek And Modern Design

Size: Various Sizes Available

Ventilation: Multiple Ventilation Holes For Improved Airflow

### Applications:

The Quantum Board Heatsink is an essential accessory for those who want to reduce the heat generated by their Quantum Board LED lights. The heatsink has multiple ventilation holes that allow for improved airflow, which helps to dissipate the heat. With the Quantum Board Heatsink, you can be sure that your LED lights will operate at optimal temperatures, which will extend their lifespan.

The Quantum Board Heatsink is suitable for a variety of applications. It is an excellent choice for those who want to grow plants indoors using Quantum Board LED lights. The heatsink ensures that the LED lights do not overheat and cause damage to the plants. Additionally, the Quantum Board Heatsink is perfect for those who use LED lights for photography or videography. The heatsink ensures that the LED lights do not overheat and affect the quality of the photos or videos.

The Quantum Board Heatsink is also suitable for those who use LED lights for aquariums. The heatsink ensures that the LED lights do not overheat and cause harm to the aquatic creatures. Additionally, the Quantum Board Heatsink is perfect for those who use LED lights for commercial purposes, such as in retail stores or offices. The heatsink ensures that the LED lights do not overheat and cause discomfort to customers or employees.

In conclusion, the ANROFU Quantum Board Heatsink is a must-have accessory for those who use Quantum Board LED lights. The heatsink is made of high-quality aluminum material, is available in various sizes, and has multiple ventilation holes for improved airflow. The Quantum Board Heatsink is suitable for a variety of applications, including indoor plant growth, photography and videography, aquariums, and commercial uses. With the Quantum Board Heatsink, you can be sure that your LED lights will operate at optimal temperatures, which will extend their lifespan.

### Customization:

Our Quantum Board Heatsink is compatible with various types of Quantum Board LED lights. It is made with durable materials that guarantee long-lasting use, no matter the conditions.

We offer Quantum Board Heatsinks in various sizes to fit your specific needs. Whether you need a small heatsink for a single LED light or a larger one for multiple lights, we have you covered.

Trust ANROFU to provide you with a versatile, reliable, and high-performing Quantum Board Heatsink. Order yours today!

## Support and Services:

The Quantum Board Heat Sink is a product designed to provide efficient cooling for Quantum Board LED grow lights. It is made of high-quality materials and features a unique design that maximizes heat dissipation while minimizing noise. The heat sink is easy to install and comes with a comprehensive user manual that provides step-by-step instructions.

Our product technical support team is available to answer any questions you may have about the Quantum Board Heat Sink.

We offer a range of services to ensure that your heat sink is functioning properly and efficiently, including:

Expert installation and setup

Regular maintenance and cleaning

Repairs and replacements

Technical troubleshooting

We are committed to providing top-notch customer service and ensuring that our customers are completely satisfied with their Quantum Board Heat Sink. If you have any questions or concerns, please do not hesitate to contact us.

## FAQ:

### **Q: What is ANROFU Quantum Board Heat Sink?**

A: ANROFU Quantum Board Heat Sink is a product designed to help dissipate heat from Quantum Board LED grow lights, improving their efficiency and lifespan.

### **Q: Where is ANROFU Quantum Board Heat Sink made?**

A: ANROFU Quantum Board Heat Sink is made in China.

### **Q: What material is ANROFU Quantum Board Heat Sink made from?**

A: ANROFU Quantum Board Heat Sink is made from high-quality aluminum.

### **Q: Will ANROFU Quantum Board Heat Sink fit my Quantum Board LED grow light?**

A: ANROFU Quantum Board Heat Sink is compatible with most Quantum Board LED grow lights on the market. However, it is recommended to check the dimensions of your LED grow light before purchasing ANROFU Quantum Board Heat Sink to ensure compatibility.
