

18w T8 LED Grow Lights Full Spectrum with 30 Year Lifetime and 70LM/W Lumen Output

Basic Information

- Place of Origin: CHINA
- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-S07
- Minimum Order Quantity: 1
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 10000pcs per day

HIGH QUALITY LED CHIPS

Promotes plant growth and increases germination and survival rates

Promote growth

Plant coloring

Product Specification

- Input Voltage: AC85-265V
- Lumen Output: 70LM/W
- Ip Grade: IP65
- Certifications: FCC,CE,UKCA,PSE,ROHS
- Ppe: 2.1 μ mol/J
- Light Distribution: 120 °
- Lifetime: 30,000hrs
- Power: 18W
- Highlight: 70LM/W LED Grow Lights,
30 Year Lifetime LED Grow Lights,
Full Spectrum LED Grow Lights

Product Description

Product Description:

At 18W, this grow light tube is powerful enough to support plant growth with ease. The IP65 grade ensures that this product is resistant to dust and water, making it suitable for use in damp environments. You can rest assured that your plants are safe with this high-quality LED grow light tube.

Not only is this grow light tube powerful and durable, but it is also certified by reputable organizations such as FCC, CE, UKCA, PSE, and ROHS. These certifications ensure that this product adheres to strict safety and quality standards.

The LED Grow Light Tube is perfect for indoor gardening enthusiasts who want to grow plants all year round. It is an ideal choice for those who want to grow plants in areas with limited natural light or for those who want to supplement natural light with artificial light. This LED grow light tube is also energy-efficient, making it an eco-friendly option for those who want to reduce their carbon footprint.

This product is easy to install and use. Simply plug it in and watch your plants thrive. With the LED Grow Light Tube, you can achieve optimal plant growth and health.

Features:

Product Name: LED Grow Light Tube
Lifetime: 30,000hrs
Power: 18W
Lamp Lumincus Efficiency: 2.1 $\mu\text{mol/J}$
Lumen Output: 70LM/W
Voltage: 100-277V

Technical Parameters:

Certifications	FCC, CE, UKCA, PSE, ROHS
Lifetime	30,000hrs
Lamp Lumincus Efficiency	2.1 $\mu\text{mol/J}$
Material	Aluminum + PC
Power	18W
Light Distribution	120 °
Ip Grade	IP65
Input Voltage	AC85-265V
Ppe	2.1 $\mu\text{mol/J}$
Lumen Output	70LM/W

Applications:

The LED Grow Light Tube is designed to provide optimal light conditions for indoor plants, and it is useful in various occasions and scenarios. Here are some of the applications where this product can be used:

Greenhouses: The LED Grow Light Tube is perfect for use in greenhouses as it provides the right amount of light required by plants to grow and thrive. It can be used to supplement natural light or as the primary source of light.

Indoor Gardens: If you have an indoor garden, the LED Grow Light Tube is an excellent choice for providing the right amount of light for your plants. It can be used to grow a wide range of plants, including herbs, flowers, and vegetables.

Hydroponic Systems: The LED Grow Light Tube is perfect for use in hydroponic systems as it provides the right spectrum of light required for plant growth. It can be used in various hydroponic systems, including deep water culture, drip irrigation, and nutrient film technique.

Aquaponic Systems: If you have an aquaponic system, the LED Grow Light Tube is an excellent choice for providing the right amount of light for your plants and fish. It can be used to grow a wide range of plants and provide the right spectrum of light required for photosynthesis.

Vertical Farms: The LED Grow Light Tube is perfect for use in vertical farms as it provides the right amount of light required by plants to grow and thrive. It can be used to supplement natural light or as the primary source of light.

The LED Grow Light Tube has an IP65 rating, which means it is dustproof and waterproof, making it suitable for use in damp and dusty environments. It has an input voltage of AC85-265V, making it suitable for use in different regions. It also has several certifications,

including FCC, CE, UKCA, PSE, and ROHS.

The LED Grow Light Tube has a lumen output of 70LM/W, which means it provides bright and efficient lighting for your plants. It is also energy-efficient, which means it can save you money on your electricity bill while providing the right amount of light for your plants.

Support and Services:

The LED Grow Light Tube product comes with technical support and services to ensure optimal performance and longevity. Our team of experts is available to assist with any questions or concerns related to installation, operation, and maintenance of the product.

Additionally, we offer repair and replacement services for any parts that may become damaged or malfunctioning during use. Our goal is to provide top-notch customer service and support throughout the lifetime of your LED Grow Light Tube.

For further assistance, please refer to the product manual or contact our customer support team.
