

# 18w 28w 36w Full Spectrum LED Grow Light Tube Vertical Farm Hydroponics Clone Plants LED Grow Light

Our Product Introduction

for more products please visit us on [growled-light.com](http://growled-light.com)

## Basic Information

- Place of Origin: CHINA
- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-S08
- Minimum Order Quantity: 1
- Delivery Time: 3-5 working days
- Payment Terms: T/T
- Supply Ability: 10000pcs per day

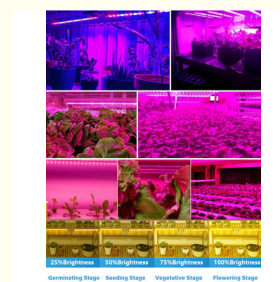

## Product Specification

- Lifetime: 30,000hrs
- Material: Aluminum+PC
- Ppe: 2.1μmol/J
- Power: 18W
- Light Distribution: 120 °
- Ip Grade: IP65
- Voltage: 100-277V
- Lumen Output: 70LM/W
- Highlight: Full Spectrum LED Grow Light Tube, Vertical Farm LED Grow Light Tube, Hydroponics Clone Plants LED Grow Light

## Product Description

### Product Description:

With a Lamp Lumincus Efficiency of 2.1  $\mu\text{mol/J}$  and a Lumen Output of 70LM/W, this LED Grow Light Tube ensures that your plants get the right amount of light they need to grow and thrive. The PPE of 2.1  $\mu\text{mol/J}$  ensures that every watt of energy consumed by the LED Grow Light Tube is converted into useful light that your plants can use for photosynthesis.

The LED Grow Light Tube has a wide Light Distribution of 120°, which ensures that your plants get light from all angles and eliminates any dark spots that could hinder their growth. This feature makes it perfect for indoor gardening where light may not be evenly distributed.

The LED Grow Light Tube has an IP Grade of IP65, which means that it is dust-tight and protected against water jets from any angle. This feature makes the LED Grow Light Tube perfect for use in damp environments, such as greenhouses or indoor gardens where moisture is a concern.

Investing in the LED Grow Light Tube will ensure that your plants receive the perfect amount of light they need to grow and thrive, no matter what the weather is like outside. It is the perfect solution for indoor gardening enthusiasts, allowing you to grow your favorite plants and vegetables all year round.

### Features:

Product Name: LED Grow Light Tube

Ppe: 2.1  $\mu\text{mol/J}$

Light Distribution: 120°

Power: 18W

Input Voltage: AC85-265V

Lumen Output: 70LM/W

### Technical Parameters:

LED Grow Light Tube	
Material	Aluminum + PC
Lifetime (L70)	>150,000hrs
Power	18W
PPE (Lamp Luminous Efficiency)	2.1 $\mu\text{mol/J}$
Input Voltage	AC85-265V
Certifications	FCC,CE,UKCA,PSE,ROHS
IP Grade	IP65
Light Distribution	120°
Lumen Output	70LM/W

### Applications:

The LED Grow Light Tube is perfect for a variety of occasions and scenarios. It is ideal for use in greenhouses, indoor gardens, and other indoor plant cultivation setups. With an input voltage of AC85-265V and an IP Grade of IP65, the product is highly durable and can withstand harsh weather conditions. The lamp lumincus efficiency is 2.1  $\mu\text{mol/J}$ , providing the perfect wavelength for the growth of plants. The power consumption of the LED Grow Light Tube is low, with only 18W needed to operate it.

The LED Grow Light Tube has a light distribution of 120°, which is perfect for evenly distributing light to plants. This feature ensures that the plants receive the proper amount of light they need to grow. The product is perfect for use in hydroponic systems, aeroponic systems, and any other indoor plant cultivation systems. The LED Grow Light Tube is easy to install and use, making it perfect for beginners and professionals alike.

Overall, the ANROFU LED Grow Light Tube is the perfect product for anyone who wants to grow plants indoors. Its high-quality certifications, low power consumption, and impressive light distribution make it the ideal choice for both amateur and professional gardeners. Order now and experience the benefits of the LED Grow Light Tube for yourself!

### Support and Services:

The LED Grow Light Tube product comes with our comprehensive technical support and services to ensure that you get the most out of your purchase:

- Expert advice on product selection and usage
- Installation and setup assistance
- Troubleshooting and diagnostic support
- Warranty and repair services
- Access to product manuals and documentation

Our team of experienced technicians and customer support representatives are dedicated to providing you with timely and effective solutions to any issues or questions you may have regarding your LED Grow Light Tube product.
