Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC
- Model Number: Z244
- Minimum Order Quantity: 1
- Price: \$35-\$42/pcs
- Packaging Details: 57*27.5*24.5CM
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs/ day

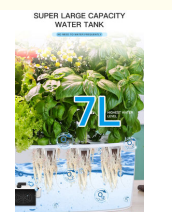

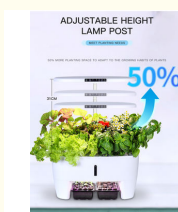

Product Specification

- Color: White
- Watering Pump: Automatic
- 3 Light Mode: Yes
- Material: Plastic
- Power: 34.7W
- Size: 52*23*33.5-66.7cm (adjustable The Lamp Post)
- LED Light Board Reversible: Yes
- Lighting System: LED Grow Light
- Highlight: Plants Hydroponic Growing System, LED Lighting Hydroponic Planter, Water Pump Integrated Hydroponic Planter

Product Description

Product Description:

The Intelligent Hydroponic Planter is equipped with the latest hydroponic technology, which means that you don't need soil to grow your plants. Instead, the plant's roots are suspended in a nutrient-rich water solution, allowing them to grow faster and healthier than traditional soil-based plants. This Hydro Power Plant Equipment is perfect for those who want to have a sustainable, eco-friendly gardening experience.

The white-colored planter is made of high-quality plastic, making it lightweight and easy to move around. It comes equipped with an LED lighting system that provides the perfect amount of light for your plants to thrive. The Hydroponics Led Grow Lights simulate natural sunlight and provide the right spectrum of light for optimal plant growth.

The Intelligent Hydroponic Planter also has a timer function, which allows you to set the light cycle for your plants. This feature ensures that your plants receive the right amount of light and darkness, which is essential for their growth. The timer function also makes it easy to manage your plant's growth, as you can set it and forget it!

The Intelligent Hydroponic Planter is powered by electricity, making it a cost-effective solution for indoor gardening. You don't need to worry about replacing batteries or running out of power, as it can be plugged into any standard electrical outlet. This Hydro Grow System is perfect for those who want to save money on their gardening expenses.

In conclusion, the Intelligent Hydroponic Planter is the perfect solution for indoor gardening. It's easy to set up, easy to use, and provides optimal growing conditions for your plants. With its Hydroponics Led Grow Lights, timer function, and eco-friendly design, it's the perfect addition to any home. Get yours today and start enjoying fresh, healthy plants all year round!

Our Product Introduction

Features:

Product Name: Intelligent Hydroponic Planter

Color: White

Lighting System: LED Grow Light

Water Tank: 7L

Size: 52*23*33.5-66.7cm(adjustable the lamp post)

Material: Plastic

Introducing the Intelligent Hydroponic Planter - the perfect solution for your Flower Pots And Planters needs. This Hydroponic System comes with a built-in LED Lighting System and an Intelligent circulating water pump, ensuring that your plants get the perfect amount of light and moisture they need to grow healthy and strong. The Hydroponics Led Grow Lights provide the necessary light spectrum for your plants to thrive. Made of durable plastic and available in a sleek white color, this medium-sized planter is the perfect addition to your indoor garden.

Technical Parameters:

Size	Medium
3 Light Mode	Yes
Water Tank	7L
Power Source	34.7W
Lighting System	LED Grow Light
Material	Plastic
Color	White
Intelligent Circulating Water pump	Automatic

Applications:

The Z244 model features that monitors moisture levels in the water and automatically adjusts the watering system to provide optimal growing conditions for plants. The automatic watering system also helps to conserve water by only providing the necessary amount for the plants. The lighting system is powered by energy-efficient LED lights that provide the necessary light spectrum for plants to grow and thrive. The power source for the Z244 is electricity, making it easy and convenient to operate.

The ANROFU Z244 Intelligent Hydroponic Planter is perfect for a variety of occasions and scenarios. It's great for those who live in apartments without access to outdoor space, as it allows for easy indoor gardening. The hydroponic system also makes it an excellent choice for those who want to grow plants without soil, eliminating the need for messy soil and the hassle of repotting. It's also a great option for those who want to grow fresh herbs and vegetables year-round, regardless of the weather conditions outside.

The Z244 is also perfect for offices and schools, as it provides a fun and educational way to learn about plant growth and sustainability. The automatic watering system and LED lighting make it easy for anyone to maintain the plants, even those without a green thumb. It's also a great way to bring a touch of nature into indoor spaces, improving air quality and creating a more relaxing atmosphere.

In conclusion, the ANROFU Z244 Intelligent Hydroponic Planter is a versatile hydro power plant equipment that offers an easy and convenient way to grow plants indoors, without soil. Its automatic watering system, humidity sensor, and LED lighting make it perfect for a variety of occasions and scenarios, from apartments to offices and schools. Its made in China with durable materials and high-quality standards to ensure it lasts for years to come.
