Product Description

Product Description:

The planter is powered by electricity, making it easy to set up and use. Simply plug it in and you're ready to go. The white plastic material used to construct the planter ensures that it will fit in seamlessly with any home decor.

In addition to its hydro grow system and Touch key panel settings, the Intelligent Hydroponic Planter also features a timer function. This allows you to set a schedule for when the planter will turn on and off, ensuring that your plants receive consistent light and water.

This planter is perfect for those who are new to home hydroponic growing systems or who are looking for a more convenient and efficient way to grow plants indoors. The hydroponics LED grow lights provide the perfect amount of light for your plants to thrive and produce healthy yields.

In summary, the Intelligent Hydroponic Planter is an excellent choice for those looking to grow plants indoors. With its hydro grow system, humidity sensor, timer function, and hydroponics LED grow lights, this planter makes growing plants easier and more efficient than ever before. So, whether you're a seasoned gardener or a beginner, this planter is sure to help you achieve the beautiful, healthy plants you've always wanted.

Features:

Introducing the Intelligent Hydroponic Planter - a medium-sized, white planter made of plastic with an automatic watering system and touch key panel screen. This home hydroponic growing system is powered by electricity and comes equipped with a timer function and hydroponics LED grow lights. Experience the benefits of the hydro grow system with this innovative and convenient planter.

Applications:

The Anrofu Z208 hydroponic planter is an excellent choice for anyone who loves gardening but has limited space. The planter is suitable for growing a variety of plants, including vegetables, herbs, and flowers. Its green wall planter design is perfect for those who want to create a vertical garden and maximize their growing space.

The Anrofu Z208 hydroponic planter comes with a LED lighting system that provides the perfect light spectrum for your plants to thrive. The lighting system is designed to simulate natural sunlight and can be set to a timer function, ensuring that your plants get the required amount of light and darkness they need to grow.

The Anrofu Z208 hydroponic planter is a perfect fit for those who want to grow plants indoors, especially in areas where natural light is insufficient. The hydroponic system ensures that your plants get the required nutrients and water, making it easier for you to grow plants in your house.

The Anrofu Z208 hydroponic planter is an excellent choice for those who want to create a garden in their balcony, terrace, or backyard. Its lightweight and easy-to-use design make it a perfect fit for outdoor spaces. The planter also comes with a timer function, making it easier to maintain your garden even when you are not around.

The Anrofu Z208 hydroponic planter is a product of China, a country known for producing high-quality gardening products. Its white color and modern design make it a perfect fit for any home decor.

In conclusion, the Anrofu Z208 hydroponic planter is an excellent choice for anyone who loves gardening and wants to grow plants without soil. Its hydroponic system, LED lighting system, and timer function make it easier to maintain your garden, ensuring that your plants grow faster and healthier. Whether you want to create a vertical garden or grow plants indoors or outdoors, the Anrofu Z208 hydroponic planter is the perfect fit for you.

Customization:

ANROFU offers product customization services for the Z208 Intelligent Hydroponic Planter. Our hydroponic system comes equipped with humidity sensors and automatic watering systems, making it easy to grow your plants. The medium-sized planter is powered by electricity and comes in a sleek white color. Additionally, the planter is designed to work with hydroponic LED grow lights, which can be added to your customization package. Our products are made in China, ensuring quality and durability.
