Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC
- Model Number: DI-S23
- Minimum Order Quantity: 1
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union
- Supply Ability: 10000pcs/ day

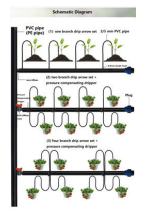

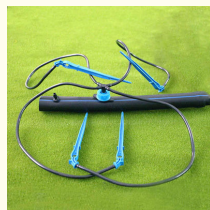

Product Specification

- Product Name: Agriculture Drip Irrigation System
- Application: Agriculture
- Material: Plastic
- Diameter: 3/5mm
- Length: 50cm
- Type: Irrigation System
- Pressure Rating: 20-200kpa
- Coverage Area: Up To 1000 Square Feet
- Highlight: Watering System For Potted Plants , Farming drip watering system, Greenhouse Drip Irrigation System

Product Description

Product Description:

The Drip Irrigation System is a versatile and efficient solution for agricultural watering needs. This Garden Irrigation System is designed to provide precise and controlled watering to your plants, ensuring optimal growth and health.

With a pressure rating of 20-200kpa this Garden Irrigation System is suitable for a wide range of agricultural applications. Whether you are watering a small garden or a large farm, this system can deliver consistent water pressure to meet your needs.

This Garden Irrigation System is designed as a drip irrigation system, which is known for its water efficiency and targeted watering capabilities. By delivering water directly to the root zone of plants, drip irrigation minimizes water waste and helps prevent issues such as overwatering or water evaporation.

The materials used in this Garden Irrigation System are high-quality plastic, ensuring durability and longevity. The plastic construction is resistant to corrosion and degradation, making it ideal for outdoor use in various weather conditions.

Whether you are a professional farmer or a home gardener, this Garden Irrigation System offers a reliable and effective way to keep your plants properly watered. The easy-to-install design makes it accessible to users of all levels of expertise, allowing you to set up the system quickly and start benefiting from its features.

In conclusion, the Drip Irrigation System is a must-have tool for anyone looking to enhance their agricultural practices with a reliable and efficient watering solution. With its optional timer, pressure rating of 20-200kpa, drip irrigation design, and durable plastic construction,

Our Product Introduction

this Garden Irrigation System is sure to meet and exceed your watering needs.

Features:

Product Name: Drip Irrigation System
Material: Plastic
Length: 50cm
Application: Agriculture
Pressure Rating: 20-200kpa
Diameter: 3/5mm

Applications:

The ANROFU Drip Irrigation System (Model DI-S23) is a versatile and efficient garden irrigation system designed to meet the watering needs of various plants and crops. With a diameter of 3/5mm, this system is perfect for delivering water directly to the root zone of plants, ensuring optimal hydration and minimal water wastage.

Hailing from CHINA, this drip irrigation system is built to withstand varying pressures, with a pressure rating of 20-200kpa. Whether you have a small backyard garden or a large greenhouse, the ANROFU DI-S23 is suitable for coverage areas of up to 1000 square feet, making it ideal for a wide range of applications.

One of the key product application occasions for the ANROFU DI-S23 Drip Irrigation System is in garden irrigation systems. The precise and targeted watering provided by this system helps maintain healthy plants and vibrant blooms in your garden. Whether you have flower beds, vegetable patches, or shrubbery, this system ensures each plant receives the right amount of water.

In addition to garden irrigation systems, the ANROFU DI-S23 is also well-suited for greenhouse irrigation systems. The controlled watering offered by this system is essential for maintaining the optimal growing conditions within a greenhouse. From delicate seedlings to mature plants, the DI-S23 provides consistent moisture levels to promote healthy growth.

Whether you are a home gardener, a commercial grower, or a greenhouse enthusiast, the ANROFU DI-S23 Drip Irrigation System is a reliable and efficient solution for your watering needs. Its durable construction, efficient water delivery, and wide coverage area make it a versatile choice for various irrigation applications.

Customization:

Customize your Agricultural Irrigation with our ANROFU Drip Irrigation System (Model: DI-S23) originating from CHINA. This system is made of high-quality Plastic with a diameter 3/5mm, perfect for your Greenhouse Drip Irrigation System needs. With a Pressure Rating of 20-200kpa, this customizable Irrigation System will meet your agricultural needs effectively.

Support and Services:

The Product Technical Support and Services for the Drip Irrigation System include:

- Installation assistance to ensure proper setup of the system.
- Troubleshooting guidance for any issues that may arise during operation.
- Maintenance tips to prolong the lifespan of the system and optimize performance.
- Product warranty information and support for any defective components.
- Training resources for users to learn how to effectively use and maintain the system.
