### Basic Information

- Brand Name: ANROFU
- Certification: FDA/FCC/CE/ROHS/UL/SAA/C - TICK
- Model Number: M350
- Minimum Order Quantity: 1
- Packaging Details: 33\*23\*8CM 3.6KG
- Delivery Time: 5-8 days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs/ day

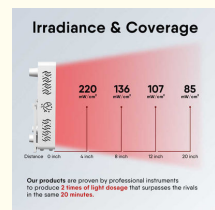

### Product Specification

- Usage: Pain Relief, Muscle Recovery, Skin Rejuvenation
- Wavelength: 660nm:850nm=1:1 (Red+Infrared) Customize
- LED Quantity: 70pcs 5w Led Chips
- Certifications: FDA, CE, RoHS
- Type: Infrared Light Therapy Device
- Power: 350W
- Treatment Area: 4-20 Inches
- Light Source: Infrared LED
- Highlight: 660nm 850nm Infrared LED Light Therapy, 350W Infrared LED Light Therapy, Overheating Protection Infrared LED Light Therapy

Our Product Introduction

### Product Description

#### Product Description:

Infrared LED Light Therapy is a cutting-edge treatment method that harnesses the power of infrared light to provide soothing relief and healing benefits. The Infrared Therapy Light is a top-of-the-line device that utilizes infrared LED technology with a wavelength of 660nm 850nm to target specific areas of the body and promote wellness. With a treatment area of 4-20 inches, this device is designed to deliver focused therapy where it's needed most.

The Infrared Therapy Light is a powerful tool with a power output of 350W, ensuring effective and efficient treatment sessions. This device is specifically crafted to deliver the optimal level of infrared light to penetrate deep into the skin and tissues, promoting circulation, reducing inflammation, and accelerating the body's natural healing processes.

As a Type: Infrared Light Therapy Device, this product is at the forefront of innovative healthcare solutions, offering a non-invasive and drug-free approach to managing various health conditions. Whether you're dealing with muscle pain, joint stiffness, or skin issues, the Infrared Therapy Light can provide relief and support your body's overall well-being.

Infrared LED Light Therapy has gained popularity in recent years due to its numerous benefits and versatility in addressing a wide range of health concerns. By utilizing infrared light at a wavelength of 660nm 850nm, this therapy can effectively penetrate the skin to stimulate cellular repair and regeneration, resulting in improved circulation, reduced pain, and enhanced recovery.

Infrared Light Therapy Devices, such as the Infrared Therapy Light, offer a safe and natural way to support your body's healing processes without the need for medications or invasive procedures. The targeted approach of infrared LED light allows for precise treatment of

specific areas, making it ideal for localized pain relief and targeted therapy.

The Infrared Therapy Light is easy to use and can be incorporated into your daily routine for consistent and effective results. Whether you're an athlete looking to speed up recovery after intense workouts or someone seeking relief from chronic pain, this device can be a valuable addition to your wellness toolkit. Experience the benefits of Infrared LED Light Therapy with the Infrared Therapy Light and take control of your health and well-being.

### Features:

Product Name: Infrared Therapy Light  
Certifications: FDA, CE, RoHS  
Wavelength: 660nm 850nm  
Safety Features: Overheating Protection  
Treatment Area: 4-20 Inches  
Type: Infrared Light Therapy Device

### Applications:

The ANROFU M350 Infrared Therapy Light, originating from China, is a versatile device designed for various product application occasions and scenarios. With its safety features including overheating protection and certifications such as FDA, CE, and RoHS, this Infrared Light Therapy Device is a reliable choice for users seeking pain relief, muscle recovery, and skin rejuvenation.

One of the primary product application occasions for the ANROFU M350 is in the realm of Far Infrared Therapy Devices. The device's 850nm wavelength ensures deep tissue penetration, making it effective for addressing issues such as muscle pain and joint stiffness. Whether used at home or in a professional setting, this therapy light can provide targeted relief where needed.

Furthermore, the ANROFU M350 is well-suited for Infrared LED Light Therapy applications. The specific wavelength of 660nm 850nm is known for promoting cellular repair and regeneration, making it beneficial for enhancing skin health and appearance. Users can enjoy the rejuvenating effects of infrared light therapy in the comfort of their own space.

For individuals looking to incorporate Infrared Light Therapy Devices into their wellness routine, the ANROFU M350 offers a user-friendly and effective solution. Whether dealing with chronic pain, post-workout muscle soreness, or desiring a non-invasive skin rejuvenation option, this device caters to a wide range of needs.

### Customization:

Customize your ANROFU M350 Infrared Therapy Light for targeted results. Our product, manufactured in CHINA, is equipped with FDA, CE, and RoHS certifications for quality assurance. Powered by Infrared LED light source at 850nm wavelength, it is ideal for Pain Relief, Muscle Recovery, and Skin Rejuvenation in a treatment area of 4-20 Inches.

### Support and Services:

Our company offers comprehensive Product Technical Support and Services for the Infrared Therapy Light product. Our dedicated team of experts is available to assist with any technical issues, troubleshooting, and product questions that you may have. We provide guidance on product usage, maintenance, and care to ensure optimal performance and longevity.
