Product Description

Product Description:

The Infrared Therapy Light is an innovative product designed to provide effective therapy using infrared light technology. This powerful device operates on electric power, making it convenient to use in various settings.

With a treatment time of 20 minutes, the Infrared Therapy Light offers a quick and efficient way to experience the benefits of infrared therapy. The recommended treatment area for this device is between 3-18 inches, ensuring targeted and effective therapy.

As an Infrared Light Therapy Device, this product harnesses the power of infrared light to promote healing and pain relief. The device emits infrared light that penetrates deep into the skin, stimulating cellular repair and regeneration.

Weighing just 6kg, the Infrared Therapy Light is lightweight and portable, allowing users to easily transport and use it wherever they go. Whether at home, in the office, or while traveling, this device provides a convenient solution for those seeking the benefits of infrared therapy.

The Infrared Therapy Light is a versatile device that can be used for a variety of purposes. Whether you are looking to alleviate muscle pain, reduce inflammation, or improve circulation, this Infrared Laser Therapy Machine is designed to address your specific needs.

Far Infrared Therapy Devices have been widely recognized for their ability to promote healing and well-being. By using the Infrared Therapy Light regularly, you can experience the rejuvenating effects of infrared therapy in the comfort of your own home.

Our Product Introduction

One of the key features of the Infrared Therapy Light is its 700W Red Light Therapy capability. This powerful red light therapy helps to stimulate collagen production, reduce wrinkles, and improve skin tone, making it an essential part of any skincare routine.

Whether you are dealing with chronic pain, recovering from an injury, or simply looking to improve your overall well-being, the Infrared Therapy Light offers a natural and effective solution. Say goodbye to discomfort and hello to a healthier, happier you with this advanced Infrared Light Therapy Device.

Features:

Product Name: Infrared Therapy Light
Type: Infrared Light Therapy Device
Weight: 6kg
Treatment Time: 20 Minutes
Wavelength: 850nm660nm

Applications:

The ANROFU M700 Infrared Therapy Light is a versatile device that can be used in a variety of situations due to its effective Infrared Red Light Therapy capabilities. Here are some Product Application Occasions and Scenarios where the ANROFU M700 can be beneficial:

- 1. Pain Relief:** The Infrared Therapy Light can be used to relieve pain in muscles and joints. Whether you are an athlete with sore muscles or someone experiencing chronic pain, the Infrared Red Light Therapy can provide soothing relief.
- 2. Recovery After Exercise:** Athletes and fitness enthusiasts can benefit from using the Infrared Laser Therapy Machine post-workout to speed up recovery and reduce muscle fatigue. The adjustable arm feature makes it easy to target specific areas of the body.
- 3. Skin Rejuvenation:** The Infrared Red Light Therapy can also be used for skin treatments to promote collagen production and improve skin elasticity. The 850nm wavelength is effective for stimulating cell regeneration and enhancing skin health.
- 4. Relaxation and Stress Relief:** Create a calming atmosphere at home by using the Infrared Therapy Light for relaxation purposes. The automatic shut-off feature ensures safety and peace of mind during use.
- 5. Weight Management:** Incorporating the Infrared Red Light Therapy into your weight management routine can help with metabolism and fat loss. The lightweight design of 6kg makes it portable and easy to use anywhere.

Designed in CHINA, the ANROFU M700 is a reliable Electric-powered device that combines safety features with practical features. Whether you are looking for pain relief, skin rejuvenation, or relaxation, this versatile Infrared Therapy Light is a valuable addition to your wellness routine.
