### Product Description

#### Product Description:

The Infrared Therapy Light is a cutting-edge device designed to provide effective and convenient infrared light therapy from the comfort of your own home. With a weight of 6kg, this portable device is easy to handle and store, making it ideal for daily use.

This Infrared Therapy Light is classified as an Infrared Light Therapy Device, specifically designed to harness the power of infrared light for therapeutic purposes. With 700W Red Light Therapy capabilities, this device delivers a potent dose of infrared heat, known for its healing and rejuvenating properties. Whether you are looking to relieve muscle pain, improve circulation, or reduce inflammation, this device offers a non-invasive and drug-free solution.

Powered by electricity, the Infrared Therapy Light offers a reliable and consistent power source for your daily therapy sessions. Simply plug the device into a standard electrical outlet, and you are ready to experience the benefits of infrared heat therapy. Say goodbye to the hassle of batteries or recharging – with this device, you can enjoy uninterrupted sessions whenever you need them.

Experience the soothing warmth and healing benefits of the Infrared Therapy Light, also known as an Infrared Heat Lamp. This versatile device is designed to promote relaxation, relieve tension, and support overall well-being. Whether you are recovering from an injury, managing chronic pain, or simply seeking a moment of relaxation, the Infrared Therapy Light offers a holistic solution.

In conclusion, the Infrared Therapy Light is a powerful and convenient device that brings the benefits of 700W Red Light Therapy into

Our Product Introduction

your home. Infrared Heat Lamp capabilities, adjustable arm, and electric power source, this device offers a comprehensive solution for your infrared light therapy needs. Discover the transformative effects of infrared heat therapy with the Infrared Therapy Light today.

### Features:

Product Name: Infrared Therapy Light  
Weight: 6kg  
Input Voltage: AC100-240V  
Treatment Area: 3-18 Inches  
Wavelength: 660nm 850nm  
Power Source: 700W

### Applications:

The ANROFU M700 Infrared Therapy Light is a versatile device that can be used in various product application occasions and scenarios. With its advanced IR Infrared LED technology, this device is designed to provide effective Infrared LED Light Therapy for a wide range of health and wellness benefits.

One of the key product attributes of the ANROFU M700 is its adjustable arm, which allows for easy positioning and targeting of the Infrared light therapy. This feature makes it suitable for use in home settings, clinics, spas, and other wellness facilities.

Whether you are looking to relieve muscle aches and pains, improve circulation, or promote relaxation, the ANROFU M700 is a convenient and effective solution. Its lightweight design, weighing 6kg, makes it easy to transport and use wherever you go.

Thanks to its Electric power source and safety features such as automatic shut-off, the ANROFU M700 offers a reliable and secure user experience. This makes it suitable for use by individuals of all ages, including the elderly and those with mobility issues.

The ANROFU M700 Infrared Therapy Light is proudly made in CHINA, ensuring high quality and durability. Its Type as an Infrared Light Therapy Device further emphasizes its effectiveness in providing targeted and soothing IR Infrared LED therapy.

In conclusion, the ANROFU M700 Infrared Therapy Light is a versatile and practical device that can be used in a variety of settings and scenarios. Whether for personal use at home or professional use in wellness centers, this product offers a convenient and reliable solution for all your Infrared LED light therapy needs.
