### Product Description

#### Product Description:

The Infrared Therapy Light, also known as an Infrared Heat Lamp, is a powerful device designed to deliver the benefits of 7000W Red Light Therapy using IR Infrared LED technology. This innovative product offers a convenient and effective way to experience healing and relief from various conditions.

With a treatment time of 20 minutes, this Infrared Therapy Light allows for quick and efficient sessions that can easily fit into your daily routine. Whether you're looking to alleviate muscle pain, improve circulation, or enhance relaxation, this device is a versatile solution for your wellness needs.

Weighing just 6KG, the Infrared Therapy Light is lightweight and portable, making it easy to move and position as needed. Its adjustable arm feature further enhances its flexibility, allowing you to target specific areas or adjust the angle for optimal results.

The treatment area of 3-18 inches ensures that the Infrared Therapy Light can cover a sufficient area to deliver the therapeutic benefits of its 660nm 850nm wavelength. This specific wavelength is known for its deep tissue penetration and ability to stimulate cellular repair and regeneration.

Using the Infrared Therapy Light is simple and straightforward. Just set it up in a comfortable location, adjust the arm to your desired position, and enjoy a relaxing 20-minute session. Whether you're using it for pain relief, skin rejuvenation, or overall wellness, this device offers a convenient way to experience the benefits of infrared therapy.

Our Product Introduction

Investing in your health and well-being is easy with the Infrared Therapy Light. Its compact design, adjustable features, and powerful wavelength make it a valuable addition to your self-care routine. Say goodbye to discomfort and hello to rejuvenation with this advanced Infrared Heat Lamp.

### Features:

Product Name: Infrared Therapy Light  
Power : 700W  
Treatment Area: 3-18 Inches  
Input Voltage: AC100-240V  
Treatment Time: 20 Minutes  
Wavelength: 660nm 850nm

### Applications:

ANROFU's M700 Infrared Therapy Light is a versatile device that offers a range of product application occasions and scenarios suitable for various needs. With its advanced IR Infrared LED technology, this device is designed to provide effective light therapy for a wide range of health and wellness concerns.

One of the key product attributes of the ANROFU M700 is its versatility in treatment areas. The device is perfect for targeting specific areas of the body, making it ideal for treating muscle pain, joint stiffness, and inflammation. Whether you are an athlete looking to speed up recovery or someone dealing with chronic pain, this Infrared Light Therapy Device can provide relief.

Thanks to its adjustable arm, the ANROFU M700 can be easily positioned to target different parts of the body, ensuring maximum effectiveness during each 20-minute treatment session. The device's automatic shut-off feature adds an extra layer of safety, giving users peace of mind during their therapy sessions.

Whether you are using the ANROFU M700 at home, in a professional setting, or even during travel, its electric power source makes it convenient to use wherever you go. Its compact size and lightweight design further enhance its portability, allowing you to enjoy the benefits of Far Infrared Therapy Devices anytime, anywhere.

Made in CHINA, the ANROFU M700 Infrared Therapy Light is a reliable and high-quality product that caters to a wide range of treatment needs. Its ability to target a treatment area of 3-18 inches makes it suitable for localized therapy, making it a practical choice for those seeking effective pain relief and relaxation.
