### Product Description

#### Product Description:

Introducing the Seedling Tray Plants, the perfect solution for nurturing your plants in the early stages of growth. This product is a set of 12 Cells, making it a convenient Growth Starter Plant Container for your gardening needs. Each pack includes 1 trays, providing ample space for your plants to thrive.

The Seedling Tray Plants are designed with Drainage Holes, ensuring proper water drainage to prevent overwatering and root rot. This feature promotes healthy root development and overall plant growth, making it an ideal choice for nurturing seedlings and young plants.

Whether you are a seasoned gardener or a beginner, this Botanic Seedling Tray is suitable for both indoor and outdoor use. You can easily place it on your windowsill, balcony, garden, or greenhouse, allowing you to grow a variety of plants with ease.

Made from durable plastic material, the Seedling Tray Plants are sturdy and long-lasting, providing a reliable container for your plants. The material is also easy to clean and maintain, ensuring a hygienic environment for your plants to grow.

With a capacity of 12 Cells, this Seedling Tray is spacious enough to accommodate multiple plants, making it a versatile option for starting your garden. Whether you are growing herbs, vegetables, flowers, or succulents, this tray provides the perfect environment for your plants to flourish.

Transform your gardening experience with the Seedling Tray Plants, a practical and efficient solution for nurturing your plants from germination to maturity. Invest in this high-quality product today and watch your plants thrive in this specially designed tray.

Our Product Introduction

fc

### Features:

---

Product Name: Seedling Tray Plants  
Quantity: 1 Pack Of 1Trays  
Capacity: 12 Cells  
Stackable: Yes  
Drainage Holes: Yes  
Material: Plastic

### Applications:

---

ANROFU Seedling Tray Plants, model number ST01, are versatile and durable trays designed for sprout tray vegetation, botanic seedling tray, and young plant tray applications.

These rectangular trays, originating from China, are stackable which makes them ideal for both small-scale and large-scale gardening projects. The stackable feature allows for efficient use of space, making them suitable for indoor gardening in apartments, homes, or greenhouses, as well as outdoor use in gardens, nurseries, or farms.

ANROFU Seedling Tray Plants come equipped with drainage holes, ensuring proper water drainage to prevent overwatering and root rot. This feature is essential for healthy plant growth, especially for young plants and seedlings.

Moreover, these trays are reusable, making them an eco-friendly choice for environmentally-conscious gardeners. The durability of the trays allows for multiple uses, reducing waste and contributing to sustainable gardening practices.

Whether you are starting a new garden, propagating plants, or growing seedlings for transplanting, the ANROFU Seedling Tray Plants are a reliable and convenient choice. Their versatility, stackability, and drainage holes make them a practical solution for various gardening needs.
