### Product Description

#### Features:

Product Name: Infrared Therapy Light  
Input Voltage: AC100-240V  
Wavelength: 660nm 850nm  
Power Output: 1400W  
Type: Infrared Light Therapy Device  
Power Supply: AC Adapter

#### Applications:

The ANROFU M1400 Infrared Therapy Light, originating from China, is a versatile product suitable for various applications and scenarios, thanks to its advanced features and benefits.

One of the key uses of this therapy light is for muscle recovery and pain relief. The IR Infrared LED technology with a wavelength of 660nm 850nm penetrates deep into the muscles, providing soothing relief from aches, sprains, and stiffness. Athletes, fitness enthusiasts, or individuals with muscle-related issues can benefit greatly from this Infrared Heat Lamp.

Our Product Introduction

Moreover, the ANROFU M1400 is ideal for skincare treatments. The Infrared Red Light Therapy helps stimulate collagen production, improve skin elasticity, and reduce signs of aging. It can be used in beauty salons, spas, or even at home for rejuvenating skincare routines.

Individuals looking for relaxation and stress relief can also find this therapy light beneficial. The gentle heat emitted by the device can promote relaxation, relieve tension, and create a calming atmosphere. The auto shut-off feature ensures safety and peace of mind during use, making it suitable for meditation or relaxation sessions lasting between 5 to 30 minutes.

With compact dimensions of L764\*W310\*H60MM, the ANROFU M1400 is portable and easy to use in various settings. Whether at home, in a clinic, or while traveling, this therapy light can be powered using an AC/DC adapter, offering convenience and flexibility.

In conclusion, the ANROFU M1400 Infrared Therapy Light is a versatile and effective solution for muscle recovery, skincare treatments, relaxation, and pain relief. Its advanced features, including the Infrared Heat Lamp technology and auto shut-off function, make it a valuable addition to wellness routines in a range of settings.

### Customization:

Enhance your infrared light therapy experience with our customizable ANROFU M1400 Infrared Light Therapy Device, originating from CHINA. Designed for optimal performance, this device offers treatment times ranging from 5 to 30 minutes, making it suitable for various needs.

Powered by an AC adapter, this device provides a power output of 1400W, ensuring consistent and reliable operation. The large treatment area of up to 20 inches caters to a wide range of users, allowing you to target specific areas effectively.

Experience the benefits of Infrared Light Therapy Devices with our versatile ANROFU M1400 model, suitable for Infrared LED Light Therapy and Infrared Laser Therapy Machine applications.
