

Aluminum Body UFO Round Design 200W LED Grow Light for Home Growing Full Spectrum Tent Hobby

Our Product Introduction

for more products please visit us on growable-light.com

Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-UFO200W-1
- Minimum Order Quantity: 1
- Packaging Details: 45*45*15cm / carton Weight: 4kg/pcs
- Delivery Time: 3-5 Working Days
- Payment Terms: T/T
- Supply Ability: 10000pcs Per Day

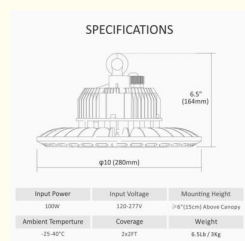

Product Specification

- Power: 200W
- Voltage: AC100-240V
- Type: UFO Round Design
- Dimension: D400*H150mm
- Waterproof: IP65
- Lamp Body Material: Aluminum
- Eff: 2.7μmol/J
- Angle: 120°
- Highlight: Full Spectrum LED Grow Light, Home Growing LED Grow Light, 200W LED Grow Light

Product Description

Product Description:

The Full Spectrum LED Grow Light Panel is a top-of-the-line product designed for commercial growers seeking high efficiency and reliable performance. With an impressive efficiency rating of 2.7μmol/J, this LED grow light is a cost-effective solution for maximizing plant growth and yield.

Our Product

One of the standout features of this LED grow light is its IP65 waterproof rating, making it suitable for use in various growing environments without worrying about water damage. Whether you are growing plants indoors or outdoors, this waterproof LED grow light will ensure consistent performance and longevity.

Equipped with high-quality LED chips, this grow light delivers a powerful and uniform light output that is essential for promoting plant growth across all stages. The full spectrum is providing plants with the complete range of light wavelengths they need for photosynthesis and optimal development.

The foldable design of this LED grow light makes it easy to adjust the light angle and coverage area to suit your specific growing setup. Whether you have a small grow tent or a large commercial greenhouse, this versatile design allows you to customize the lighting to meet the needs of your plants at different growth stages.

Operating at a voltage range of AC100-240V, this LED grow light is compatible with standard electrical systems, making it easy to integrate into your existing setup. Whether you are a seasoned grower or new to indoor gardening, this user-friendly LED grow light is a convenient and effective lighting solution for your plants.

In summary, the Full Spectrum LED Grow Light Panel offers commercial growers a high-efficiency, waterproof, and versatile lighting solution for promoting healthy plant growth. With LED chips, foldable design, and full spectrum coverage, this LED grow light provides the essential light wavelengths needed for optimal plant development. Whether you are growing herbs, vegetables, or flowers, this LED grow light is a reliable choice for achieving consistent results and maximizing yields.

Features:

Product Name: Full Spectrum LED Grow Light
Waterproof: IP65
Lamp Body Material: Aluminum
Type: Foldable Design
Voltage: AC100-240V
Power: 200W

Applications:

The ANROFU HY-UFO200W-1 Full Spectrum UV IR LED Grow Light is a versatile product suitable for various application occasions and scenarios. With its foldable design and high-quality LED chips, this grow light is perfect for use in different settings:

Greenhouses: The LED Grow Light is ideal for greenhouse cultivation as it provides the necessary light spectrum for all stages of plant growth. Whether it's seed starting, vegetative growth, or flowering, this grow light can meet the needs of different plants.

Indoor Gardening: The compact design of the ANROFU HY-UFO200W-1 makes it a great choice for indoor gardening setups. It can easily fit into grow tents or grow rooms, providing consistent and uniform light coverage for your plants.

Hydroponic Systems: This LED grow light is also suitable for use in hydroponic systems where plants are grown without soil. The full spectrum light ensures that plants receive the right amount of light for healthy growth and maximum yield.

Commercial Cultivation: Thanks to its certification (CE ROHS FCC ETL DLC) and reliable performance, the ANROFU LED Grow Light is a preferred choice for commercial cultivation operations. With a supply ability of 10000pcs per day, it can meet the needs of large-scale growers.

Whether you are a hobbyist gardener, a commercial grower, or a greenhouse operator, the ANROFU HY-UFO200W-1 Full Spectrum UV IR LED Grow Light is a dependable choice. With a minimum order quantity of 1 and a quick delivery time of 3-5 working days, you can easily get started with this high-quality grow light. Payment terms via T/T make the purchasing process convenient and efficient.

Experience the benefits of the ANROFU UV IR LED Grow Light in your cultivation setup today. Its waterproof design (IP65) ensures durability and longevity, while the LED chips deliver powerful and efficient lighting for your plants. The dimensions of D400*150mm and voltage range of AC100-240V make it a versatile and easy-to-use lighting solution for a wide range of plants and growth stages.

Customization:

Product Customization Services for the Full Spectrum LED Grow Light:

Brand Name: ANROFU
Model Number: HY-UFO200W-1
Place Of Origin: CHINA
Certification: CE ROHS FCC ETL DLC
Minimum Order Quantity: 1
Delivery Time: 3-5 Working Days
Payment Terms: T/T
Supply Ability: 10000pcs Per Day
Efficiency: 2.7μmol/J
Lamp Body Material: Aluminum
Type: UFO Round Design
Waterproof: IP65
Dimension: D400*H150mm

Support and Services:

Our Product Technical Support and Services for the Full Spectrum LED Grow Light include:

- Assistance with installation and setup
- Troubleshooting guidance for any issues
- Recommendations for optimal usage and performance
- Warranty coverage and support for any defective units
- Regular updates and information on new features or improvements
