

150lm/w UFO Round Design Full Spectrum LED Grow Light for Seedlings and Vegetables Waterproof Plants Growing Lamp

Our Product Introduction

for more products please visit us on growled-light.com

Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-UFO100W
- Minimum Order Quantity: 1
- Packaging Details: 50.5*25.5*40mm(6 pcs/ carton) Weight: 5.8KG/CTN
- Delivery Time: 3-5 Working Days
- Payment Terms: T/T
- Supply Ability: 10000pcs Per Day

Product Specification

- Lamp Luminous Efficiency(lm/w): 150
- Led Chip Quantity: 120pcs
- Voltage: AC100-240V
- Lamp Body Material: Aluminum
- Type: UFO Round Design
- Eff: 2.6μmol/J
- Dimension: D240*55mm
- Application: Vegetable Flower Fruit Greenhouse Growing Lights
- Highlight: Seedlings Full Spectrum LED Grow Light, 150lm/w Full Spectrum LED Grow Light, Waterproof Plants Growing Lamp

Product Description

Product Description:

The Full Spectrum LED Grow Light is a cutting-edge horticultural lighting solution designed to optimize plant growth and yield. With 120pcs of high-quality LED chips, this grow light delivers a powerful and efficient light spectrum to support all stages of plant development. The foldable design of the light makes it versatile and easy to install in various grow spaces.

Measuring at D240*55mm, this Full Spectrum LED Grow Light is compact yet powerful, making it suitable for commercial applications where space is limited. The efficient design of the light ensures that plants receive uniform light distribution, promoting healthy growth and maximizing yields.

Featuring an impressive efficiency of 2.6 μ mol/J, this LED Grow Light is designed to provide plants with the optimal light intensity needed for photosynthesis. The 120° beam angle of the light ensures that a wide coverage area is illuminated, allowing for the uniform growth of plants throughout the entire growing area.

Whether you are a professional grower or a hobbyist, this Full Spectrum LED Grow Light is an ideal choice for anyone looking to enhance plant growth and productivity. The commercial-grade quality of the light ensures long-lasting performance and reliability, making it a valuable investment for any indoor gardening setup.

With its advanced LED chip technology and efficient design, this LED Grow Light is capable of delivering the full spectrum of light that plants need for healthy growth. From seedling to flowering, this grow light provides the perfect to promote strong, vigorous plant development.

Experience the benefits of using a high-quality Full Spectrum LED Grow Light for your indoor garden or commercial grow operation. Enhance plant growth, increase yields, and achieve healthier, more vibrant plants with this innovative horticultural lighting solution.

Features:

Product Name: Full Spectrum LED Grow Light

Lamp Body Material: Aluminum

Voltage: AC100-240V

Angle: 120°

Led Chip Quantity: 120pcs

Eff: 2.6 μ mol/J

Applications:

ANROFU's Full Spectrum LED Grow Light, model HY-UFO100W, is a versatile lighting solution that can be used in various product application occasions and scenarios. With its certification of CE, ROHS, FCC, ETL, and DLC, this product is reliable and safe to use.

One of the key application scenarios for this LED grow light is in commercial settings such as indoor farms, greenhouses, and grow tents. The full spectrum lighting provided by this product is ideal for promoting plant growth and maximizing yields in a controlled environment.

Thanks to its foldable design, the HY-UFO100W LED grow light is also suitable for personal use in home gardens or small indoor plant setups. Whether you are growing herbs, vegetables, or flowers, this product can help provide the necessary light spectrum for healthy plant development.

Being waterproof with an IP65 rating, this LED grow light is suitable for use in damp or humid environments, making it a great choice for greenhouse or hydroponic setups. The aluminum lamp body material ensures durability and efficient heat dissipation for long-lasting performance.

With 120pcs of LED chips and a voltage range of AC100-240V, this LED grow light offers powerful and efficient lighting coverage for plants of various sizes. The ANROFU HY-UFO100W has a minimum order quantity of 1, with a delivery time of 3-5 working days and payment terms of T/T.

ANROFU's supply ability of 10000pcs per day ensures that customers can rely on a steady source of Full Spectrum LED Grow Light panels for their indoor gardening needs. Whether for commercial growers or home gardening enthusiasts, this product offers a reliable and effective lighting solution for plant growth.

Customization:

Customize your Greenhouse LED Grow Lights with our Product Customization Services for the Full Spectrum LED Grow Light.

Brand Name: ANROFU

Model Number: HY-UFO100W

Place Of Origin: CHINA

Certification: CE ROHS FCC ETL DLC

Minimum Order Quantity: 1

Delivery Time: 3-5 Working Days

Payment Terms: T/T

Supply Ability: 10000pcs Per Day
Voltage: AC100-240V
Angle: 120°
Type: UFO Round Design
Led Chip Quantity: 120pcs
Waterproof: IP65

Support and Services:

Our Product Technical Support and Services for the Full Spectrum LED Grow Light include:

- Expert troubleshooting assistance for any issues with the grow light
- Guidance on optimal usage and settings for different plant types
- Warranty coverage and repair services for any manufacturing defects
- Access to online resources and FAQs for quick assistance
- Regular software updates and improvements to enhance performance
