and focused light beam ensures that your fishing spot is well-lit, allowing you to see clearly in the dark and improve your fishing success rate.

Whether you are a seasoned angler or a beginner, this Squid Fishing Light is the perfect tool to enhance your fishing experience and increase your chances of a successful catch. Its durable construction, high-powered light source, and versatile design make it an essential accessory for any fishing enthusiast.

Don't miss out on the opportunity to elevate your fishing adventures with our LED Fishing Light. With its superior quality, durable construction, and versatile design, this fishing light is sure to become your go-to accessory for all your outdoor activities. Get yours today and experience the difference!

Features:

Fishing light for squid/cuttlefish  
Submersible fishing light  
Squid Fishing Light  
Product Name: LED Fishing Light  
Material: Stainless Steel  
Weight: 22KG  
Power Source: 3000W  
Size: Φ215\*405mm  
Color: Green, White, Red, Cyan

Technical Parameters:

Light Source	LED COB Chip
Input Voltage	AC200-265V
Usage	Fishing/Boating/Camping
Weight	22KG
Power Source	3000W
Color	Green, White, Red, Cyan
Material	Stainless Steel
Size	Φ215*405mm

Applications:

ANROFU LED Fishing Light is the perfect lighting solution for various fishing applications, especially squid fishing. With its advanced LED COB Chip light source, this product offers bright and efficient illumination, making it the best LED fishing light for deep sea expeditions.

Originating from China, this high-quality fishing light is designed to meet the needs of professional fishermen and hobbyists alike. Its sturdy stainless steel construction ensures durability and long-lasting performance, making it a reliable companion for fishing trips.

Weighing 22KG and measuring Φ215\*405mm in size, the ANROFU LED Fishing Light is portable and easy to transport, allowing you to bring it along on fishing excursions with ease. Whether you are fishing from a boat, pier, or shore, this versatile light can enhance your fishing experience.

The input voltage range of AC200-265V provides flexibility in power supply options, ensuring compatibility with various electrical systems. This feature makes the ANROFU LED Fishing Light suitable for use in different locations and scenarios, whether you are fishing in remote areas or well-equipped fishing spots.

Whether you are a professional angler looking to improve your catch rate or a recreational fisherman seeking a reliable lighting solution, the ANROFU LED Fishing Light is a practical and efficient choice. Its superior performance, durability, and portability make it the best LED fishing light for deep sea adventures and various fishing applications.

Customization:

Enhance your fishing experience with our customizable LED Fishing Light from ANROFU. This submersible fishing light is designed with high-quality Stainless Steel material and features an LED COB Chip light source, providing bright illumination underwater. The Φ215\*405mm size ensures optimal coverage, while the powerful 3000W power source guarantees long-lasting performance.

Operating at an input voltage of AC200-265V, this fishing light is perfect for attracting fish during night fishing trips. Customize your light with options for blue or green LEDs to suit your preferences. Explore the depths and catch more fish with our Lampe de pêche LED tailored to meet your needs.
