Product Description

Product Description:

The LED Fishing Light is a top-of-the-line product that encompasses the latest technology in fishing lights. As one of the best fishing light brands 2025, this light source features advanced LED COB Chip technology that ensures superior brightness and efficiency. The LED COB Chip provides a powerful and reliable light source that is perfect for attracting fish during nighttime fishing expeditions.

This LED fishing light is available in four different colors: Green, White, Red, and Cyan. Each color option serves a specific purpose, whether it's attracting specific types of fish or creating the ideal ambiance for your fishing, boating, or camping activities. The versatility of color options makes this light a must-have for any fishing enthusiast.

Measuring at Φ215*405mm, this LED fishing light is compact and easy to transport, making it ideal for use on boats, docks, or camping sites. The size is perfect for both personal and professional use, ensuring that you have a reliable light source wherever your fishing adventures take you.

One of the standout features of this LED fishing light is its input voltage range of AC200-265V. This wide range of input voltage allows for versatile use in various settings, whether you're fishing from the shore or out at sea. The flexibility of the input voltage range ensures that you can always rely on this fishing light to provide the illumination you need.

Designed to be a submersible fishing light, this LED light is perfect for attracting fish in deep waters. Its durable construction and waterproof design make it suitable for use in all weather conditions, ensuring that you can rely on it for long-lasting performance. The submersible nature of this fishing light sets it apart from traditional fishing lights, making it a valuable addition to any angler's gear.

Our Product Introduction

In summary, the LED Fishing Light is a long-lasting LED fishing light that offers unparalleled performance and versatility. With its advanced LED COB Chip technology, multiple color options, compact size, wide input voltage range, and submersible design, this fishing light is a must-have for any fishing, boating, or camping enthusiast. Trust in this LED fishing light to illuminate your fishing adventures and attract fish with ease.

Features:

Product Name: LED Fishing Light
Usage: Fishing/Boating/Camping
Size: Φ215*405mm
Power Source: 3000W
Weight: 22KG
Color: Green, White, Red, Cyan

Technical Parameters:

Light Source	LED COB Chip
Input Voltage	AC200-265V
Weight	22KG
Usage	Fishing/Boating/Camping
Material	Stainless Steel
Size	Φ215*405mm
Color	Green, White, Red, Cyan
Power Source	3000W

Applications:

ANROFU LED Fishing Light is a versatile and high-quality product originating from China. With its advanced LED COB Chip technology, this fishing light provides exceptional brightness and durability. The light is available in four different colors: Green, White, Red, and Cyan, making it suitable for various fishing scenarios.

Weighing 22KG, this LED fishing light is designed for heavy-duty use and can withstand harsh outdoor conditions. Its power source of 3000W ensures a reliable and consistent performance, making it ideal for extended fishing expeditions.

The ANROFU LED Fishing Light is perfect for a wide range of applications, including shrimp fishing, boating, and camping. Whether you are fishing for shrimp at night or targeting larger fish like tuna or marlin, this LED light provides the illumination needed for a successful catch.

For shrimp fishing, the green and white light options are highly effective in attracting shrimps to the surface, making it easier to catch them. The red and cyan lights are ideal for creating a different ambiance and can be useful for attracting specific types of fish like tuna and marlin.

Whether you are out on a fishing trip, boating adventure, or camping in the wilderness, the ANROFU LED Fishing Light is a must-have accessory. Its durable construction, powerful light source, and multiple color options make it a versatile tool for various outdoor activities.

Customization:

Enhance your fishing experience with our ANROFU LED Fishing Light customized product. Handcrafted in China, this fishing light attractor is designed to meet your specific needs.

With an input voltage of AC200-265V, our product is versatile and can be used in various settings. Choose from a selection of colors including Green, White, Red, and Cyan to suit your preferences.

The Φ215*405mm size and 22KG weight make this fishing light attractor easy to handle and transport. Powered by a reliable LED COB Chip light source, you can trust the performance of this product in any fishing environment.

Support and Services:

The LED Fishing Light product comes with comprehensive Product Technical Support and Services to ensure you have a seamless experience. Our team of experts is available to assist you with any technical queries or issues you may encounter while using the product.
