Product Description

Product Description:

The LED Fishing Light is a powerful and versatile tool designed specifically for fishing squid and cuttlefish. With a power source of 3000W, this underwater fishing light is perfect for attracting marine life in deep waters.

Measuring at $\Phi 215 \times 405$ mm, this waterproof 500m fishing light is compact and easy to transport, making it ideal for fishing enthusiasts who enjoy night fishing trips.

Equipped with LED COB Chip technology, this fishing light emits a bright and efficient light source that is sure to attract a wide range of marine species.

The LED Fishing Light comes in four different colors - Green, White, Red, and Cyan, allowing you to customize your fishing experience based on your preferences and needs.

With an input voltage of AC200-265V, this fishing light is compatible with most power sources, making it convenient and easy to use in various locations.

Whether you are a professional fisherman or a hobbyist, the LED Fishing Light is a must-have accessory for your fishing trips. Its durable design and powerful light source make it a reliable tool for attracting squid and cuttlefish in deep waters.

Experience the thrill of night fishing with the LED Fishing Light and watch as marine life gathers around this underwater beacon. Enhance your fishing success rate with this innovative and effective fishing light that is designed to meet the needs of fishing enthusiasts.

Features:

Lámpara LED para pesca

Fishing light attractor

Underwater fishing light

Product Name: LED Fishing Light

Material: Stainless Steel

Color: Green, White, Red, Cyan

Size: $\Phi 215 \times 405$ mm

Input Voltage: AC200-265V

Weight: 22KG

Technical Parameters:

Material	Stainless Steel
Usage	Fishing/Boating/Camping
Weight	22KG
Size	$\Phi 215 \times 405$ mm
Light Source	LED COB Chip
Input Voltage	AC200-265V
Power Source	3000W
Color	Green, White, Red, Cyan

Applications:

ANROFU LED Fishing Light is a versatile lighting solution designed for various outdoor activities such as fishing, boating, and camping. Originating from China, this high-quality product is suitable for both professional fishermen and outdoor enthusiasts.

The LED Fishing Light, also known as "Lampe de pêche LED," is equipped with a waterproof design that allows it to be submerged up to 500m underwater, making it ideal for deep-sea fishing expeditions. The durable stainless steel material ensures longevity and reliability even in challenging marine environments.

With an input voltage of AC200-265V, this fishing light can be easily powered in different settings. Whether you are fishing from the shore, on a boat, or camping by the water, the ANROFU LED Fishing Light provides a consistent and bright illumination to attract fish and enhance visibility.

Available in multiple colors including green, white, red, and cyan, users can choose the most suitable light color based on their preferences and fishing conditions. The 22KG weight of the light adds to its stability and ensures it stays securely in place during use. For boating enthusiasts, the 12V/24V fishing light option is compatible with various boat electrical systems, making it a convenient addition to any marine vessel. Whether you are night fishing or navigating dark waters, the ANROFU LED Fishing Light provides reliable

visibility and enhances safety on board.
