Product Description

Product Description:

Introducing the ANROFU LED Fishing Light, a must-have accessory for every angler looking to enhance their fishing experience. This submersible fishing light is designed to attract a wide variety of fish with its powerful illumination, making it an essential tool for night fishing adventures.

Our Product

The LED Fishing Light comes in a compact size of Φ215*405mm, making it easy to transport and install on your boat. Available in four vibrant colors - Green, White, Red, and Cyan - this versatile light allows you to customize your fishing setup according to your preferences and the fishing conditions.

With a power source of 3000W, this waterproof fishing light for boats emits a bright and intense light that can penetrate deep waters, attracting fish from afar. Whether you are fishing in freshwater or saltwater, this durable light will help you achieve greater visibility and increase your chances of a successful catch.

Weighing just 22KG, the LED Fishing Light is sturdy, ensuring easy handling and reliable performance during your fishing trips. Its compact design and manageable weight make it a practical accessory for both novice and experienced anglers.

Equipped with an input voltage of AC200-265V, this fishing light is compatible with most standard electrical outlets, allowing for hassle-free operation and flexibility in various fishing environments. Whether you are fishing from a dock, pier, or boat, this versatile light will adapt to your power source with ease.

Enhance your fishing expeditions with the ANROFU LED Fishing Light and discover a whole new level of excitement and productivity on the water. With its superior illumination, durable construction, and user-friendly features, this submersible fishing light is a valuable addition to any angler's gear collection.

Product Name: LED Fishing Light

Input Voltage: AC200-265V

Usage: Fishing/Boating/Camping

Color: Green, White, Red, Cyan

Material: Stainless Steel

Size: Φ215*405mm

Technical Parameters:

Size	Φ215*405mm
Color	Green, White, Red, Cyan
Light Source	LED COB Chip
Input Voltage	AC200-265V
Power Source	3000W
Material	Stainless Steel
Usage	Fishing/Boating/Camping
Weight	22KG

Applications:

The ANROFU LED Fishing Light is a versatile and reliable product designed for various outdoor activities. With its high-quality LED COB Chip light source, this fishing light is perfect for fishing, boating, and camping adventures.

Whether you are a professional angler or a recreational fisherman, the ANROFU LED Fishing Light is an essential tool for your fishing trips. The blue/green LED light emitted by this product is highly attractive to fish, making it easier for you to catch your desired target species.

One of the key features of this fishing light is its ability to function effectively in deep waters. With a maximum depth of 30m or 50m, the ANROFU LED Fishing Light is ideal for deep drop fishing expeditions. The bright light produced by this product can penetrate the depths of the water, attracting a wide range of fish species.

In addition to deep drop fishing, the ANROFU LED Fishing Light is also suitable for underwater fishing activities. The stainless steel construction of the light ensures durability and waterproof performance, making it safe to use in wet conditions.

Whether you are fishing during the day or at night, the ANROFU LED Fishing Light offers excellent visibility and illumination. The compact size of Φ215*405mm makes it easy to transport and set up, making it a convenient accessory for your outdoor adventures.

Available in a range of colors including green, white, red, and cyan, the ANROFU LED Fishing Light allows you to customize your fishing experience according to your preferences. Made in China, this product combines quality craftsmanship with innovative technology to meet the needs of outdoor enthusiasts.
