

## Optimize Your Harvest with 12 Strips Greenhouse LED Grow Lights Ppe 3.5 Umol/J

### Our Product Introduction

for more products please visit us on [growled-light.com](http://growled-light.com)

#### Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-UFO100W
- Minimum Order Quantity: 1
- Delivery Time: 3-5 Working Days
- Payment Terms: T/T
- Supply Ability: 10000pcs Per Day

#### Product Specification

- Driver: Juson,customized
- Control Method: WIFI Control
- Actual Power Draw: 545w± 3%
- Body Material: Aluminum
- Led Brand: Cree Bridgelux , Epistar, Epileds
- Lamp Power: 960w
- Led Bar: 12 Strips
- Cooling System: Dual Cooling Fans
- Highlight: **full spectrum LED grow light strips, greenhouse LED grow lights 12 strips, high efficiency LED grow light 3.5 umol/j**

## Product Description

### Product Description:

One of the standout features of this grow light is its PPE (photosynthetic photon efficacy) rating of 3.5  $\mu\text{mol/J}$ , which means that plants receive the ideal amount of light they need to thrive. The efficient PPE ratio also contributes to energy savings, making this grow light both eco-friendly and cost-effective.

Equipped with a Jusun driver that can be customized to suit specific needs, the Full Spectrum LED Grow Light offers flexibility and control over the lighting environment. The driver ensures stable performance and reliable operation, giving users peace of mind when it comes to their plants' lighting needs.

In terms of design, this grow light features a modular design that allows for easy installation and maintenance. The mobile app control further enhances user experience by enabling remote monitoring and adjustment of light settings. With the mobile app, users can conveniently manage their grow light system from anywhere, ensuring that their plants receive the perfect lighting conditions at all times. Whether you are a professional grower or a hobbyist looking to optimize plant growth, the Full Spectrum LED Grow Light is a versatile and efficient solution. Its high-quality LED strips, advanced PPE rating, customizable driver, and user-friendly design make it an excellent choice for anyone seeking top-notch greenhouse LED grow lights or commercial LED grow lights. Experience the benefits of full spectrum lighting and take your plant growth to the next level with this exceptional grow light.

### Features:

**Product Name:** Full Spectrum LED Grow Light

**Case Color:** Black+White

**Rated Power Watt:** 100w

**Control Method:** WIFI Control

**Cooling System:** Dual Cooling Fans

**Ppe:** 3.5  $\mu\text{mol/J}$

### Technical Parameters:

Technical Parameter	Value
Control Method	WIFI Control
Actual Power Draw	545w $\pm$ 3%
Case Color	Black+White
Body Material	Aluminum
Driver	Jusun,customized
Type	Foldable Design
Led Bar	12 Strips
Thermal Management	Passive
Rated Power Watt	100w
Lamp Power	960w

### Applications:

ANROFU's HY-UFO100W Full Spectrum LED Grow Light Panel is a versatile and efficient lighting solution designed for various applications in the agricultural sector. With its foldable design and advanced features, this product is suitable for a range of occasions and scenarios.

One key application for this LED grow light is in greenhouse settings. The full spectrum lighting provided by the 12 strips of LEDs ensures that plants receive the right wavelengths for optimal growth and development. Whether used in a small-scale greenhouse or a large commercial operation, the HY-UFO100W offers consistent and reliable performance.

Additionally, this LED grow light is ideal for indoor gardening enthusiasts looking to cultivate plants indoors. The WIFI control feature allows users to easily adjust the lighting settings based on the specific needs of different plant species. The dual cooling fans also help maintain an optimal operating temperature, ensuring the longevity of the product.

For commercial growers looking to maximize their production output, the HY-UFO100W is a cost-effective solution. With a supply ability of 10000pcs per day, customers can easily meet their requirements with a minimum order quantity of just 1 unit. The quick delivery time of 3-5 working days further enhances the product's appeal.

Whether used in a small-scale indoor garden, a commercial greenhouse, or a research facility, the ANROFU HY-UFO100W LED Grow Light Panel offers the reliability and performance needed for successful plant cultivation. Backed by certifications such as CE, ROHS, FCC, ETL, and DLC, customers can trust in the quality and safety of this product, which is proudly made in China using high-quality aluminum body material.

### Customization:
