### Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-UFO100W
- Minimum Order Quantity: 1
- Delivery Time: 3-5 Working Days
- Payment Terms: T/T
- Supply Ability: 10000pcs Per Day

### Product Specification

- Rated Power Watt: 100w
- Case Color: Black+White
- Type: Foldable Design
- Control Method: WIFI Control
- Actual Power Draw: 545w± 3%
- Led Brand: Cree Bridgelux , Epistar, Epileds
- Thermal Management: Passive
- Body Material: Aluminum
- Highlight: Full Spectrum LED Grow Light 100W ,  
High PPE LED Grow Light 3.5 umol/J,  
Full Spectrum Grow Light for Optimal Growth

## Product Description

### Product Description:

Introducing our top-of-the-line Commercial LED Grow Lights - the Full Spectrum LED Grow Light. Designed to meet the diverse needs of indoor growers, this innovative grow light is equipped with advanced features to help plants thrive and flourish throughout their growth cycle.

One of the standout attributes of this grow light is its superior Thermal Management system. Utilizing passive cooling technology, this grow light effectively dissipates heat, ensuring optimal temperature regulation for your plants. The aluminum body of the grow light further enhances heat dissipation, providing a stable and conducive environment for plant growth.

Enhancing the visual appeal of this grow light is its sleek Case Color design in Black+White. The modern and stylish exterior not only adds a touch of elegance to your grow space but also complements various indoor décor styles.

For convenience and ease of use, this Full Spectrum LED Grow Light comes with WIFI Control capabilities. With the WIFI Control feature, you can remotely adjust and monitor the lighting settings of your grow light, allowing you to cater to your plants' specific requirements with just a few taps on your smartphone.

When it comes to performance, this LED grow light boasts an impressive Actual Power Draw of  $545\text{W} \pm 3\%$ . The high power output ensures that your plants receive the required light intensity for robust growth and abundant yields. The Full Spectrum design of the grow light includes UV and IR LED diodes, providing a comprehensive light spectrum that mimics natural sunlight and promotes healthy plant development.

Whether you are a seasoned grower looking to maximize crop yield or a hobbyist starting your indoor gardening journey, this Full Spectrum LED Grow Light is a versatile and reliable choice. Its cutting-edge features, including passive Thermal Management, aluminum Body Material, Black+White Case Color, WIFI Control, and high Actual Power Draw, make it a top contender in the market of Commercial LED Grow Lights.

Invest in the future of your indoor garden with our state-of-the-art Full Spectrum LED Grow Light. Experience the difference that quality lighting can make in your plant's growth and vitality. Elevate your indoor gardening game with this premium UV IR LED Grow Light and watch your plants thrive like never before.

### Features:

**Product Name:** Full Spectrum LED Grow Light

**Rated Power Watt:** 100w

**Body Material:** Aluminum

**Cooling System:** Dual Cooling Fans

**Control Method:** WIFI Control

**Case Color:** Black+White

### Technical Parameters:

Led Bar	12 Strips
Efficiency	2.8 Umol/J
Case Color	Black+White
Control Method	WIFI Control
Ppe	3.5 Umol/J
Driver	Juson,customized
Cooling System	Dual Cooling Fans
Led Brand	Cree Bridgelux, Epistar, Epileds
Lamp Power	960w
Product Design	Modular Design+ Mobile APP Control

### Applications:

When it comes to commercial LED grow lights, the ANROFU HY-UFO100W Full Spectrum LED Grow Light stands out as a top choice for indoor farming and greenhouse applications. This innovative product, originating from China, is designed to meet the highest standards of quality and performance with certifications including CE, ROHS, FCC, ETL, and DLC.

The ANROFU HY-UFO100W is equipped with 12 LED strips, providing a full spectrum of light that caters to all stages of plant growth. With an impressive efficiency of 2.8 Umol/J and a PPE of 3.5 Umol/J, this LED grow light ensures optimal light absorption for plants, promoting healthy growth and maximum yields.

One of the key features of this product is its modular design and mobile app control, allowing users to customize the lighting settings based on specific plant requirements. The driver, manufactured by Juson and customized for the HY-UFO100W model, ensures stable and reliable performance.

Whether you are looking to grow a variety of crops indoors or in a greenhouse, the ANROFU HY-UFO100W LED Grow Light is the perfect solution. Its supply ability of 10000pcs per day ensures that you can easily meet your lighting needs, with a minimum order quantity of just 1 unit.

With a quick delivery time of 3-5 working days and convenient payment terms via T/T, this LED grow light offers a hassle-free purchasing

experience. Its versatility makes it suitable for a wide range of applications, including UV IR LED grow light systems and greenhouse LED grow lights.
