Basic Information

- Brand Name: ANROFU
- Certification: CE ROHS FCC ETL DLC
- Model Number: HY-UFO100W
- Minimum Order Quantity: 1
- Delivery Time: 3-5 Working Days
- Payment Terms: T/T
- Supply Ability: 10000pcs Per Day

Product Specification

- Thermal Management: Passive
- Cooling System: Dual Cooling Fans
- Body Material: Aluminum
- Case Color: Black+White
- Product Design: Modular Design+ Mobile APP Control
- Efficiency: 2.8 Umol/J
- Ppe: 3.5 Umol/J
- Led Brand: Cree Bridgelux , Epistar, Epileds
- Highlight: full spectrum LED grow light with 12 bars ,
Epistar LED grow light with Jusun driver,
full spectrum grow light with warranty

Product Description

Product Description:

Introducing our innovative Full Spectrum LED Grow Light Panel for all your indoor gardening needs. This advanced UV IR LED Grow Light is designed to provide optimal lighting for your plants, ensuring healthy growth and maximum yields. Whether you are a seasoned gardener or just starting out, this greenhouse LED grow light is the perfect solution for your indoor cultivation setup.

The LED Grow Light Panel features a sleek and modern design with a stylish case color combination of Black and White. The body is constructed from high-quality aluminum material, ensuring durability and efficient heat dissipation for long-lasting performance. The foldable design allows for easy setup and adjustment, giving you full control over the lighting conditions for your plants.

With a PPE (Photosynthetic Photon Efficacy) rating of 3.5 Umol/J, this LED grow light delivers efficient and targeted lighting that mimics natural sunlight. The lamp power of 960w provides ample brightness to support healthy plant growth throughout all stages of development. Whether you are growing leafy greens, flowering plants, or fruiting crops, this LED grow light panel offers the perfect lighting solution for your needs.

The Full Spectrum LED Grow Light Panel is equipped with a comprehensive spectrum of light wavelengths, including UV and IR light, to ensure that your plants receive the full range of light they need for photosynthesis. This full spectrum lighting promotes strong root development, lush foliage, and abundant flowering, resulting in higher yields and enhanced plant quality.

Whether you are growing plants in a small grow tent or a large commercial greenhouse, this LED grow light is versatile and adaptable to various indoor growing environments. The foldable design allows you to adjust the angle and height of the light panel to suit the specific needs of your plants, ensuring uniform light distribution and optimal coverage across your growing area.

Investing in a high-quality LED grow light is essential for maximizing the potential of your indoor garden. Our Full Spectrum LED Grow Light Panel offers superior performance, energy efficiency, and durability, making it the ideal choice for serious growers and hobbyists alike. Say goodbye to traditional lighting methods and experience the benefits of modern LED technology with our innovative LED grow light.

In conclusion, our Full Spectrum LED Grow Light Panel is a top-of-the-line solution for indoor gardening enthusiasts looking to achieve exceptional results. With its advanced features, including UV IR LED Grow Light technology, foldable design, and high PPE rating, this greenhouse LED grow light is designed to meet the needs of even the most demanding growers. Invest in the future of your indoor garden with our premium LED grow light and watch your plants thrive like never before.

Features:

Product Name: Full Spectrum LED Grow Light

Ppe: 3.5 Umol/J

Lamp Power: 960w

Type: Foldable Design

Product Design: Modular Design+ Mobile APP Control

Body Material: Aluminum

Technical Parameters:

Technical Parameter	Value
Body Material	Aluminum
Rated Power Watt	100w
Efficiency	2.8 Umol/J
Product Design	Modular Design+ Mobile APP Control
Type	Foldable Design
Led Brand	Cree Bridgelux, Epistar, Epileds
Actual Power Draw	545w± 3%
Cooling System	Dual Cooling Fans
Thermal Management	Passive
Driver	Juson,customized

Applications:

Whether you are cultivating herbs, vegetables, or flowers, this LED grow light panel from ANROFU is ideal for a range of plant species and growth stages. From seedling to flowering, the full spectrum lighting provides the necessary wavelengths for optimal plant growth and development.

Perfect for home growers, commercial growers, and greenhouse operations, the HY-UFO100W LED grow light panel is a reliable and energy-efficient choice. Its high-quality components and CE ROHS FCC ETL DLC certifications ensure safety and performance.

Coming from CHINA, this LED grow light panel is backed by ANROFU's commitment to quality and innovation. With a minimum order quantity of 1 and a delivery time of 3-5 working days, customers can quickly receive their products and start growing with ease.

The mobile APP control feature allows users to conveniently adjust the lighting settings and monitor the plants' progress remotely. The black and white case color adds a sleek and modern touch to any indoor growing space.

With a rated power wattage of 100w and an actual power draw of 545w± 3%, this LED grow light panel offers an efficient and powerful lighting solution. With a supply ability of 10000pcs per day, ANROFU ensures a steady availability of this popular product. Overall, the HY-UFO100W LED Grow Light Panel from ANROFU is a top choice for growers looking for a reliable, high-performance lighting solution for their indoor gardening needs. Whether you are a beginner or experienced grower, this LED grow light panel will help you achieve successful plant growth and high yields.
